## For the Growing Child

The bread eaten is worth more to the growing child than the meat—if it is good bread. And our bread is good bread. It supplies all the elements necessary to sustain life. Were it not that a change is desirable all other food might be dispensed with. Made from extra quality flour and baked in modern ovens; wholesome, palatable and nourishing.

Nothing causes you greater concern than your child's health. Besides making health-giving bread we insure the child's health by observing cleanliness in our shops to the last degree.

## GRAYLING WINS 2 FAST GAMES

CHEBOYGAN AND ALPENA FAIL  
TO STOP FAST GRAYLING  
FIVE.

Local High School Boys Have  
Won Every Game Played This  
Season.

Grayling High School's fast basketball team added two victories, last week, to their already long string of victories. They have won every game played this season, some of which yielded large scores.

The game Saturday night with Alpena was the fastest that has ever been played in the school gymnasium and it looked like a battle, but as the game developed our boys gradually pulled ahead until the final score was recorded, resulting 20 to 7 in our favor.

The score Friday night with Cheboygan was 32 to 14 in our favor. This too was a fast game for the visitors have been trimming almost every team in Northeastern Michigan. They were defeated by Alpena 19 to 17, on Alpena's home floor.

Karpus for Grayling started right in making baskets and Grayling run up ten points before the visitors found the basket. The first half ended 24 to 7.

During the first half all the points except two were made by Karpus; the third basket was thrown by Doroh. During the intermission the visitors evidently took an inventory and decided that in order to make any showing they would have to stop Karpus. This they tried to do but our fast forward was too much for them and in spite of having two to four men guarding him he continued to pile up points. The game ended 32 to 14 in our favor.

Alpena's team showed up Saturday night and apparently had come to give us a trimming. They had cancelled their game with Boyne City Friday night so that their players might rest up, and proved themselves the most formidable adversary that we had to buck up against here this season.

The game started out fast and furious and early in the period Alpena scored. The first half was nearly half finished before another score was made and it looked like nobody's game at that time. Karpus, for Grayling, was the next to score, and was soon equaled by a fine throw from Thompson. When the whistle sounded the finish of the first half the score was 8 to 2 in our favor, the visitors scoring their only points early in the game.

There was considerable fouling on both sides, each time the referee penalizing the player. In the last half Grayling made 12 and Alpena 5, making the final score for the game 20 to 7 in favor of Grayling.

The Grayling players are Arthur Karpus, Carl Doroh, Carleton Meistrup, Grant Thompson and Frank Shanahan. Roy Case, substitute.

Thruout both games Mr. Ball, our commercial teacher and athletic coach acted as referee. At the end of the first half with Cheboygan their referee said that he was perfectly satisfied and wished to have Mr. Ball referee the second half. This was done accordingly. It was practically the same during the Alpena game, and M. Ball was highly complimented on his work as referee and requested that he act in the same capacity during the remainder of the game.

During both games there were almost no disputes whatever. The only matter that came up for discussion was when the time keepers blew their whistle 45 seconds before the end of first half. This was done at the request of the Alpena coach who said that he wanted to put in a substitute player. The players, believing that it was the end of the period, walked off the floor. They were not re-called to finish the 45 seconds. Shortly before the game closed time was again called and Alpena's referee requested that the last 45 seconds be added to the time of last half. This the referee refused to do, stating that the time keepers had no right to call time in order to change players, as long as nobody had been incapacitated, without first notifying him. Also the players were tired and Grayling had a lead of 13 points and there was no possible chance for Alpena to gain any advantage by prolonging the game.

Thruout both games the visitors conducted themselves like true sports and there was the most friendly feeling between the players. Both teams were good losers and said that they had been beaten fairly. The writer questioned the Cheboygan coach in regard to his opinion of Mr. Ball as a referee, and he paid the latter the highest compliments as to his ability in the capacity as referee and also as to his fairness.

## School Notes

Barclay, the cartoonist, clay-modeler and entertainer to-night.

Basketball game with Traverse City to-morrow night.

Byron W. King, lecturer and entertainer, Monday night.

Della Kreager left school last Monday to attend school in Saginaw.

In the agriculture class each student is germinating seeds or starting plants by slips.

The 8 A English class is about to take up the study of Shakespeare's "Merchant of Venice."

When Professor Henderson was here two weeks ago he gave Byron W. King a splendid testimonial, speaking of him in the very highest terms. We think Prof. Henderson would be a very competent judge upon the work of a lecturer.

Mr. Ellsworth had a very pleasant interview last Saturday with F. A. Rogers of the Bay City Y. M. C. A. Mr. Rogers was enroute to Frederic in the capacity of coach for the West Bay City High School second basketball team.

The Physical geography class have been making very interesting and complete reports on the following subjects: distribution of population, climate and occupations of Europe, Africa as a Dark continent, and the Panama canal.

In physiology, botany and agriculture grade charts are prepared upon which the name of each pupil is placed who receives a standing of G plus or E for the month.

It is quite a compliment to our basketball coach, Mr. Ball, to be called to referee each of the big games we had last week without another official on the floor. The Cheboygan coach asked Mr. Ball to referee the first half of their game Friday night, and then as everything went off so fairly he was asked to take charge of the second half. When the Alpena team came thru Cheboygan Saturday they received such a good report of the fair treatment received here by the Cheboygan team that they also asked Mr. Ball to take entire official charge of Saturday night's game. A complete report of these games will be found in another column.

The members of the second year German class recently started on a trip thru Germany. They will not be annoyed by submarines as the voyage is purely imaginary.

Are all persons well enough balanced mentally to know when they received fair treatment? From the copied article in last week's Avalanche and also from the following signed statement you may draw your own conclusions: "This certifies that Grayling gave us a square deal in Friday night's game. The playing by their team was clean and their referee was very satisfactory. We were fairly beaten and we accept our defeat with the best of grace possible."

(Signed) R. Eldridge, Coach.

Hooray! Three cheers for Grayling's generosity and interest in our basketball team! Mrs. M. Hanson and Mrs. C. T. Jerome went out with a subscription paper two afternoons this week and raised one hundred dollars. This money is to be used to buy blankets for our basketball team and to help defray their expenses to the Ypsilanti and Ann Arbor tournaments. This is certainly a worthy cause. We have a team that we can justly feel proud of and they are deserving of our support. They will help to advertise Grayling on this trip. The members of our athletic association in general and the basketball team in particular wish to thank the two solicitors, the Good Fellowship club, and all persons who contributed toward this fund.

## MAKE ROOM FOR MORE REGIMENTS

ORDERED TO CLEAR LAND ON  
WEST SIDE OF PORTAGE  
LAKE.

Capt. Case Will Start Crew of  
Men to Work Soon as Weather  
Permits.

Capt. Willard H. Case, caretaker of the Hanson State military reservation, was in Lansing last week and while there received orders from the State military board, directing him to proceed at once to clear land on the west side of the lake, sufficient to accommodate three regiments of troops. Also he was instructed to increase the capacity of the pumping station and to lay water pipes to connect with this new camp site.

Capt. Case went over the grounds Saturday last and says that he found the snow quite deep and covered with a heavy crust and is of the opinion that to begin work under these conditions would be a waste of time and money. A break-up of winter is bound to come soon and just as soon as possible a crew of men will begin work on the new camp site.

This new camp will be located north of the rifle range, and in the vicinity of the Richards cottage. It is a beautiful part of Portage lake and with the possible exception of the grand sunset scenes, which are so popular on the east side, the place is in every way equal to the south east end camp site.

This will necessitate the extension of water pipes to accommodate the troops that are to be located there. The pumping capacity at the power house will also have to be increased.

Just what troops are to be located here is not known here in Grayling at present, however we believe it is a pretty safe guess to say that the Ohio troops will occupy this camp.

Ohio has no regular National guard camp grounds and have to shift about from place to place, such as the state has been able to provide, for their summer training camps. Col. W. G. Rogers, quartermaster general of Michigan, has been spending considerable time at Columbus, Ohio, this winter, trying to get the military board of that state to take an interest in the Michigan camp here at Grayling and their legislature to appropriate money for the improvement of the

Entered as second-class matter at the Postoffice at Grayling, Mich., under the Act of Congress of March 3, 1879.

GRAYLING, THURSDAY, MAR. 8

"My Country 'Tis of Thee, Sweet Land of Liberty."

FOR THE last three weeks the Avalanche has been sending out a four-page paper. This was necessary because of the prohibitive price of ready print service and increased cost of every commodity that enters into the production of a newspaper. The service that we are giving our subscribers contains fully as much or more of home news matter, (items that are of vital interest to the people at home) as it did when we were serving eight pages. What our subscribers lose in reading matter are feature articles, kitchen kinks that every housewife has read before, serial story and a few other such articles. The readyprint companies were also publishing many advertisements for which we received no benefit, and many of these were such as we would not accept as they favored mail-order houses and stores that were in direct competition with home merchants and patent medicines, the merits of which we were in doubt.

In our four pages we are giving our readers fully 90% of the former value when we sent out eight pages. A great many newspapers have suspended publication in order to avoid bankruptcy. Now we do not wish to do either one and we know that our subscribers will be in sympathy with our action when they understand the facts. For those who still wish to have miscellaneous stories, fashion hints, needlework, farming, home hints and hundreds of other good features, we have provided subscriptions to four magazines. Of course you have to pay for them but the price we ask is only 25c for a year's subscription to the whole lot for one year.

Here is what these four would cost you unless you ordered them thru us: Today's Housewife, 75c per year; Woman's World, 50c; Home Life, 50c and Better Farming, 25c per year; and besides these a May Maunton pattern worth 15c. Here is a Club worth \$2.15 and we furnish it all for 25c to be paid in advance by subscribers. Everybody who are getting the magazines are delighted with them. We believe that this is a better proposition for our subscribers than it would be to continue publishing eight pages, (four inside pages of which were of little value) and have to increase our subscription rate. A good, live newspaper our readers may always be assured of, whether it is of four pages or more than four pages, and it is going to be larger just as soon as conditions will warrant it.

## Newspapers from Distant Lands—

## Oddities of the Foreign Press.

The Chamberlain Medicine Company, Des Moines, Iowa, manufacturers of Chamberlain's Cough Remedy, advertise not only in this country but in foreign lands. A copy of each issue of every newspaper containing their advertisements is sent to the office of the Chamberlain Medicine Company as a proof of the insertion of the advertisement. Some of the papers bear names of places, which require one to recall forgotten geography or refer to the atlas to locate. Some of them are particularly curious as they are published in the vernacular or native languages which might be likened to the carefully written notes of a shorthand writer.

Here are the well known Chinese characters arranged in vertical lines reading from top to bottom, the lines arranged from right to left.

The Burmese language, as printed is composed principally of a combination of circles. Some one wittily suggested that for this reason circulars would be properly printed in this language.

Cingalese, the language of Ceylon, is also curvilinear. Japanese and Siamese are composed largely of vertical lines connected by loops at either top or bottom but rarely at both.

The four hundred million people of India have nearly fifty different dialects, or vernaculars. The Chamberlain Medicine Company advertises in ten of the principal ones as follows: Bengali, Gujarathi, Hindi, Kanarese, Malayalam, Marathi, Sindhi, Tamil, Telugu and Urdu.

The Chamberlain Medicine Company advertises in newspapers printed in thirty-two languages.

To an American newspaper man it is interesting to note the manner in which the colonial English newspapers are made up. They still cling to the methods which were practiced in this country fifty years ago, the advertisements being upon the first few pages, followed generally by the heavy editorials, then a few meager cable and telegraphic items, afterwards the local news. The local news consists principally of the proceedings of the legislative bodies, town council, school board, etc. Contributions by the readers are numerous and lengthy.

The editorials are generally of a more dignified and serious nature than American productions. The daily papers devote more space to book reviews and detailed reports of scientific progress than American newspapers do. Humor is not so noticeable and cartoons are used more rarely than with us.

With few exceptions the advertising pages would give our "ad" writers the nightmare. They seem to have little conception of the value of space or of attractive methods of presenting either the text or the illustrations. A pleasing relief to this monotony is afforded by the "ads" of American advertisers which are rather numerous on their pages.

These were purchased last summer and intended for use of the local people and the soldiers, however they arrived too late for the military camp. There were 250 bags of 155 lbs. each or about 645 bushels, and the sale price was about \$7.75 per bushel. This shipment was sent to a firm in Chicago.

## How To Set a Hen.

As the time approaches for the hen to become broody or sit, if care is taken to look into the nest, it will be seen that there are a few soft, downy feathers being left there by the hen; also the hen stays longer on the nest when laying at this time, and on being approached will quite likely remain on the nest, making a clucking noise, ruffling her feathers, and pecking at the intruder. When it is noted that a hen sits on the nest from two to three nights in succession, and that most of the feathers are gone from her breast, which should feel hot to the hand, she is ready to be transferred to a nest which has been prepared for her beforehand, according to the poultry specialists of the U. S. Department of Agriculture. The normal temperature of a hen is from 106 to 107 degrees F., which varies slightly during incubation.

Dust the hen thoroly with insect powder, and in applying the powder hold the hen by the feet, the head down, working the powder well into the feathers, giving special attention to regions around the vent and under the wings. The powder should also be sprinkled in the nest.

The nest should be in some quiet, out-of-the-way place, where the sitting hen will not be disturbed. Move her from the regular laying nest at night and handle her carefully in doing so. Put a china egg or two in the nest where she is to sit, and place a board over the opening so that she can not get off. Toward the evening of the second day quietly go in where she is sitting, leave some feed and water, remove the board from the front or top of the nest, and let the hen come off when she is ready. Should she return to the nest after feeding, remove the china egg or eggs and put under those that are to be incubated. If the nests are slightly darkened the hens are less likely to become restless. At hatching time they should be confined and not be disturbed until the hatch is completed, unless they become restless, when it may be best to remove the chicks that are hatched first. In cool weather it is best not to put more than 10 eggs under a hen, while later in the spring one can put 12 to 15, according to the size of the hen.

## Grocery Department

We give the same careful attention to the selection and buying of our stocks that you give to the buying of your household needs. That's why the housewife who trades here never fears for quality when the order comes from our store.

The service we render to our patrons is another big reason for the leadership we maintain in the grocery business. Telephone orders are filled without those annoying mistakes, and the goods are delivered at your door on time.

During this Lenten season we are specially prepared to supply you with Lenten dishes in canned fish, etc.

Cheboygan County people are making preparations for a sugar beet plant, and many of the farmers of that vicinity have signed contracts to raise one to two acres of sugar beets, the required number of acres to be raised by each farmer. A committee composed of local men are going thru the different townships and farming districts, having these contracts signed, and intend to make a canvass of the whole county. This is similar to our pickle raising proposition.

Those having notices of society meetings, socials or any other function, please send their notices in as early as possible. We are always pleased to publish these free of charge, however, we shall reserve the privilege of refusing any notices that come in Wednesdays or Thursdays that could just as well have been sent in earlier. We will gladly take important notices as late as Thursday morning in cases where it had been impossible to send them in earlier.

Saxtorph Michelson, whose home is in Denmark, but who is travelling thru America, will give an entertainment at Danebod hall one evening the fore part of next week. The exact date has not yet been determined. He is a Danish singer and will give a musical program. He also is a composer and has composed music for many beautiful Danish songs, and some for the well known Danish orator, Jeppe Aabjerg. This will be a treat for the people of his denomination, as he comes to them highly recommended.

Life is built upon realities, not romance; this is the theme of "The Foolish Virgin," Thomas Dixon's famous novel, that has been screened as Miss Clara Kimball Young's second Selznick-pictures offering. The story deals with a young girl whose ideas of life are founded on the romantic works of fiction which she is so fond of reading. She is deceived into marrying a man with criminal tendencies who, possessed of a lust for money becomes a burglar. Her efforts to redeem the man she loves leads to many intensely dramatic situations with a powerful climax. This will be shown at the Opera house tomorrow evening (Friday.) You will miss a rare picture if you fail to attend.

Village Registration Saturday. The board of registration of the Village of Grayling will be in session Saturday for the purpose of registering legal voters for the Village election.

## Good News for Thrifty-Minded Women

THE new Wirthmor Waists in advance models for spring are now arriving—and they are still priced at just \$1.00. Quality as good as always—workmanship as fine—fit just as perfect—and styles prettier, we think than ever.

The tremendous growth of Wirthmor sales—and the further lowering of making and overhead expense—has offset the excessive rise in material costs—which explains why these waists can still be sold at \$1.00 without in any way sacrificing the quality.

## Announcing the NEW Seven-Passenger OLDSMOBILE

A MOTOR CAR creation, \$1367 ready for the road—provides a distinctive in every line—(f. o. b. Lansing) shifting rarely necessary. The ger, eight-cylinder Oldsmobile. Exquisite harmony of outline and over-all proportions distinguish this car—the result of nearly twenty years of experience in combining beauty with comfort, sturdiness with grace.

The comfort of the car is a revelation, due to the new style upholstery, of finest quality, bright finish, black leather, laid in box pleats, with no buttons to gather and hold dust and dirt. Wide doors afford easy entrance for even the largest individual.

The 120-inch wheel base, through clever body design, provides the utmost in comfortable leg room for seven passengers. Long, wide springs and perfect balance of chassis insure easy riding under any kind of going.

The fifty horse power motor, with the light weight of the car—3,000 pounds,

smoothness of the eight cylinders is a motoring delight.

Correct design and high grade workmanship are proved by the almost absolute quiet of the motor, while the balanced crankshaft, light weight, balanced connecting rods, and die-cast aluminum alloy pistons reduce vibration and loss of power through internal resistance to a minimum.

Economy of operation is insured by light weight and motor refinement. The gasoline average is from fifteen to eighteen miles a gallon, and the tire mileage is unusually high. The oil consumption is nominal.

Throughout, the car leaves nothing to be desired. Walnut woodwork and nickel finished instruments are but details of its superior worth.

The car is on display at our showroom. Call or write today for a demonstration.

## Keeping Up With Uncle Sam

The commerce of the United States is growing at a phenomenal rate. Tonnage on the New York Central Lines has increased 76% in the past ten years.

About \$50,000,000 worth of new equipment was added last year to take care of the increased freight and passenger traffic. \$600,000,000 has been expended since 1901 for permanent improvements on the

## New York Central Lines

"America's Greatest Railway System"

We must look ahead, plan ahead and build accordingly, to be able to meet the demands of commerce for increased service and facilities.

This railroad cannot do from earnings alone. New capital is required which will come only as the public sees to it that rates, legislation, taxation and wage demands are fair, insuring a reasonable and permanent return on the investment.

## Bay City vs. Frederic Basket Ball Game.

Frederic—Well, of all games of games, of thrills and thrills, the Bay City basket ball game certainly carried off the honors. Bay City Western beat their first A. C. team up here and we were able to defeat them by a score of 28 to 33.

Cheboygan said when we defeated their team last week that they didn't believe there was a team in the country that could defeat us on our own floor. The truth of this statement was certainly emphasized last Saturday night for it would be hard to find a heavier, more skillful team in Michigan than the Bay City team. Some of their players have been on the team for three years. This showed itself in the quality of their playing which was certainly marvelous.

As for the Frederic boys they never played a better game. Herman Wilcox, Elmer Johnson and Clare Cameron made the scores while Harry Reynolds and Leland Smock held down the Bay City team and the crowd stood with amazement at the work of the Frederic boys in both cases.

It seemed as if Elmer Johnson could make baskets under any conditions. He made just as pretty shots as Bleicher of Bay City and more of them.

As for Harry Reynolds it would be hard to describe his work. He was everywhere and half of the time high up in the air where the ball was.

Leland Smock is always good. He is a merry fellow and moves with the quickness of lightning.

Herman Wilcox stood his ground like a stone wall and this is saying something when you consider the Bay City boys were half muscle.

Clyde McDermid, our left forward, was taken sick and could not play. This threw the odds in favor of Bay City. His place had to be taken by Clare Cameron, who has always played guard, but Cameron met the situation and played as if he had always been a forward.

The entire game was played in a clean, enthusiastic manner on both sides, and we wish to compliment the Bay City boys on their splendid sportsmanship.

As for the crowd the hall was packed with enthusiastic fans. The D. & C. sent a special train over from DeWard; nearly everyone in town was there and it can be said that we closed our basket ball season with a banner game and a banner crowd. There are a few more return games to be played outside.

James Kalahar was referee for Frederic and Wm. Rogers for Bay City. Everyone was satisfied with decision of both. Contributed.

## Council Proceedings.

A regular meeting of the common council of the Village of Grayling, convened at the Town hall Monday evening, March 5, 1917. Meeting called to order by H. Petersen, president.

## A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

State of Michigan.  
In the Circuit Court for the County of Crawford. In Chancery.  
Annie Neveu, Complainant,  
vs.  
Charles Neveu, Defendant.

Suit pending in the Circuit Court for the County of Crawford in Chancery, at the Village of Grayling in said County, on the 26th day of February, A. D. 1917.

In this cause it appearing from affidavits on file, that the defendant Charles Neveu is a resident of this State, but supposed to be in hiding, as he is a fugitive from justice, so that the process for his appearance cannot be served upon him, and it has been duly issued, and returned, not served. On motion of O. Palmer, complainant's solicitor it is ordered that the said defendant Charles Neveu cause his appearance to be entered herein, within three months from the date of this order and in case of his appearance that he cause his answer to the complainant's bill of complaint to be filed, and a copy thereof to be served on said complainant's solicitor, within twenty days after service on him of a copy of said bill and notice of this order; and that in default thereof, said bill be taken as confessed by said Charles Neveu, defendant.

And it is further Ordered, That within twenty days the said complainant cause a notice of this order to be published in the Crawford Avalanche a newspaper printed, published and circulating in said County, and that such publication be continued therein at least once in each week for six weeks in succession, or that he cause a copy of this order to be personally served on said Charles Neveu, defendant at least twenty days before the time above prescribed for his appearance.
